

To Whom It May Concern:

As the Director of Events, Development, and Youth Programs for northern Nevada's largest performing arts venue, it is my sincere pleasure to write a letter declaring my support of The Platt Brothers. For the past three years, I have had the honor of featuring them on the Pioneer Center Youth Programs artist roster. They performed at 26 elementary schools and 13 library branches in the Reno area, reaching over 14,000 children and families in our community. The glowing feedback received from audience members at these shows stands as a testament to the quality of their work.

Their action-packed performances offer a delightful mix of song, dance, acrobatics, comedy, and improvisation. Audience members of all ages are engaged and delighted by their friendly demeanor and humorous personal interactions. Not only are they astoundingly talented, but The Platt Brothers are also professional, sincere, and truly a delight to work with.

The Platt Brothers have been the shining stars of The Pioneer Center's outreach division, and they stand as a prime example of the importance of arts education for children. Their show stresses creativity, imagination, hard work, and perseverance. They encourage children to participate in activities that inspire them, illustrating that anything is possible.

It is without reservation that I recommend The Platt Brothers as an entertaining, energetic, wonderful group to present. Their connection with their audience is unsurpassed, and it is difficult to find a better set of role models than these three gentlemen. They are gifted performers whose impressive skills and amusing dialogue combine to create a unique and truly memorable show.

Sincerely,

Dennyse Daniels
